ASU has conducted research on all programs that lead to licensure, or certification, or endorsement, or those that a student could reasonably believe lead to such licensure, certification, or endorsement. The Professional Licensure by State table indicates program curriculum either meets, does not meet or has not been determined for licensure, certification, or endorsement requirements.

The information provided does not provide any guarantee that any particular state licensure or certification entity will approve or deny a candidate’s application. Furthermore, this disclosure does not account for changes in state law or regulation that may affect a candidate’s application for licensure that occur after this disclosure has been made. In addition to the information provided here, students are strongly encouraged to contact their State’s licensure entity to review all licensure and certification requirements imposed by their state(s) of choice.

The Arizona Department of Education approves and recognizes teacher and administrator preparation programs offered by Mary Lou Fulton Teachers College of Education as providing the academic and experiential knowledge required of graduates to apply for certification in Arizona. Graduates of both teacher and administrator programs also qualify to apply for certification or licensure in many, but not all, other states and territories. Note, states often have additional subject testing, background checks, or professional experience requirements to qualify to apply for teacher or administrator certification or licensure.

Please contact MLFTCCompliance@asu.edu to learn more about professional licensure.

Applied Behavior Analysis, Graduate Certificate - Online
Special Education (Applied Behavior Analysis), MA - Online

ASU's ABA programs include coursework that meets the Association for Behavior Analysis International verified course sequence requirements to qualify to sit for the Board Certified Behavior Analyst® (BCBA) exam. Applicants will need to meet additional requirements before they can be deemed eligible take the exam. We offer an optional practicum for students seeking to accrue BCBA supervised field experience.

The authority to practice applied behavior analysis, or use the title of behavior analyst, is granted on a state-by-state basis. Many states require BCBA certification for licensure. However, not all states have enacted legislation to create a regulatory body for ABA licensure and not all states that have licensure require BCBA certification. No Mary Lou Fulton Teachers College ABA program leads to teacher certification.
