

W. P. Carey School of Business

ASU has conducted research on all programs that lead to licensure, or certification, or endorsement, or those that a student could reasonably believe lead to such licensure, certification, or endorsement. The Professional Licensure by State table indicates program curriculum either meets, does not meet or has not been determined for licensure, certification, or endorsement requirements.

The information provided does not provide any guarantee that any particular state licensure or certification entity will approve or deny a candidate's application. Furthermore, this disclosure does not account for changes in state law or regulation that may affect a candidate's application for licensure that occur after this disclosure has been made. In addition to the information provided here, students are strongly encouraged to contact their State's licensure entity to review all licensure and certification requirements imposed by their state(s) of choice.

For general questions, please contact [W. P. Carey School of Business](#).

For specific questions about Accountancy, please email wpcareyacc@asu.edu.

For specific questions about Real Estate, please email wpcareyfin@asu.edu.

For specific questions about Financial Planning, please email wpcareyfin@asu.edu

Accountancy - Certified Public Accountant

If you are considering the Certified Public Accountant designation, some of ASU's programs are designed to meet the educational requirements to sit for the CPA exam note: some states or jurisdictions have requirements in addition to those for education such as work experience). We want you to be aware of the specific educational requirements, especially because some requirements vary by state or jurisdiction. Also, please note that to become certified in some states or jurisdictions, there are additional requirements that must be met beyond those required to sit for the CPA exam. If the chart below indicates that your program does not meet the educational requirements to sit for the CPA exam in a specific state or jurisdiction, you may still be very close, and may be able to meet the educational requirements by completing additional electives. You can find specific information about the extent to which your accountancy program satisfies educational requirements by contacting the professional agencies listed below.

If you have questions, please contact wpcareyacc@asu.edu. We will be happy to help.

[Master of Real Estate Development \(MRED\)](#) – Optional national certification is available through [CCIM Institute](#).
